

CHAMBERLAIN

For all your SPACE needs ... Modulars - Jacklegs - Storage

Need more SPACE?

BA Chamberlain are specialists in the design and build of modular and jackleg building systems. We can provide you with all the space you need – quickly, easily and cost-effectively.

Our product range includes off-the-shelf and bespoke modular buildings, jackleg buildings and storage containers for commercial, industrial and public sector environments – including schools, training centres, offices, factories, airports, and health centres.

- > Standard and bespoke solutions
- > New and refurbished
- > Hire and purchase options

BA Chamberlain is a family company, established in 1976. We are big enough to matter, small enough to care.

We provide an end-to-end service - from foundations to handover. Our **Design Service** includes full site surveys, technical advice and consultancy, project planning and building design. Our **Build Service** includes ground works, foundations, transportation, installation and project management.

Our focus is on delivering exactly what our customers require – an outstanding quality product, exceptional service, and value for money.

Jackleg – Immediate Space

We provide high-quality, plastered steel exterior jackleg units - manufactured to specification and delivered to site – ready for immediate occupation, with minimum disruption to your operations.

We can design and build any size or configuration, from single units, to linked and double-stacked units.

Modular – Tailored Space

We provide cost-effective, corporate-quality accommodation – at a fraction of the cost of a traditional construction project. Including bespoke solutions.

We can design and build any size or configuration, from single modules to multi-storey buildings - finished to your specification.

Storage – Safe Space

Our secure storage systems feature steel exteriors, double doors and anti-vandal locking systems, and are available in a range of sizes and colours. (Standard size 20ft x 8ft colour blue)
